

Different Power Solutions

At Tecnoware we have been designing and creating Products and Solutions for the *electric continuity of Individuals, Businesses and Industries since 1986*, using the most advanced technologies in compliance with the Environment and Safety.

Building fruitful relationships with our *Partners*, is the core of our *Company Mission*, guaranteeing mutual growth and the continuous improvement of the *professionalism* of our services and the *quality of our products*.

At Tecnoware we invest in training our *Employees*, recognising that the quality of the work and the customer satisfaction depend on the *Company's Well-being*.

Tecnowares *Environmental Sensitivity* has translated in the so-called "*Together On*" philosophy, which motivates, pushes and inspires our Stakeholders towards more and more Eco sustainable choices.

The enthusiasm and commitment of our company increase together with our successes and strengthen *the loyalty to the values* which conquered the confidence of our Partners during our Corporate History.

# ITALIAN QUALITY IN THE WORLD

Tecnoware has been manufacturing UPS for private individuals, companies and industry **since 1986**.

*Together on*

Together On Philosophy: High **efficiency**, 100% materials **Recyclable**, **Sustainable** Development Projects.

Over 70 controls and use of **components first choice** to guarantee products up to 5 years

Branches and Partners in  
**50 Countries in the World.**

# PARTNERS AT THE CENTER

Training, Webinar,  
Digital Communication and Events.

Personal Configurator Service:  
a Partner support through  
guided configurations by our professionals.

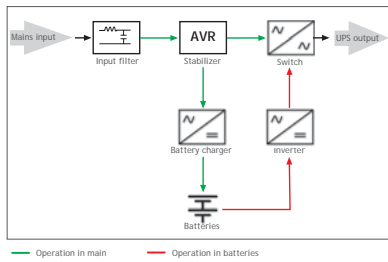

24/7 Technical / Commercial Support, Shipping in 24 hours,  
Configurations in 30 minutes and Installations and maintenance On-site.

## UPS Technology

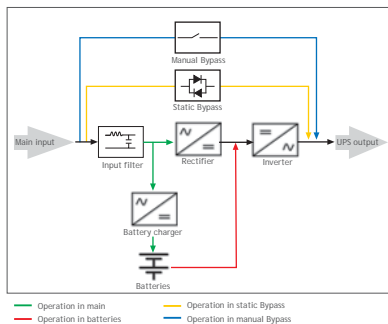

According to the standard regulation: IEC 62040-3, UPS are classified and identified as follows:

### Line Interactive (VI)

The Line Interactive, Technology is identified with the initials: VI (Voltage Independent). This means that while operating in Mains the UPS output frequency is dependent on the input frequency while the voltage is handled by the UPS. It is in fact through the stabilizer circuit that these UPS are able to protect the connected equipment from persistent voltage disturbances such as overvoltage, and Blackout.

These include the: Era PLUS Strip, Era PLUS, Era PLUS Active, Era PLUS RM and Exa PLUS.

### On Line (VFI)

The On Line Technology is identified with the initials: VFI (Voltage and Frequency Independent). This technology is commonly called "double conversion". During operations in mains, the UPS output is fed through the rectifier which converts the UPS input voltage from alternated to continuous voltage, in conjunction with the inverter which transforms again the continuous voltage into alternated voltage. This system permits to output voltage to be perfectly sinusoidal, clean and very stable in voltage and frequency, apart from problems present in the mains.

These include the: Evo DSP PLUS and EVO DSP PLUS Modular.

## Electric phenomenon and solutions

| UPS  | Blackout | Dynamic Undervoltage | Dynamic Overvoltage | Undervoltage | Overvoltage | Lightning (adding a discharger upstream) | Voltage Surge | Frequency Variation | Voltage Distortion | Voltage Harmonic |
|--|----------|----------------------|---------------------|--------------|-------------|--|---------------|---------------------|--------------------|------------------|
| Era PLUS DC - USB 5VDC 2A, USB-C OUTPUT 5V/9V/12V/15V/20V                  |          |                      |                     |              |             |  |               |                     |                    |                  |
| Era Plus DC 9 Vdc/12 Vdc - POE 24Vdc/48Vdc - USB 5Vdc                      |          |                      |                     |              |             |  |               |                     |                    |                  |

# Together on

People protecting the Planet **Together**

Help us to help  
the environment!

Tecnoware has always been a company sensitive to environmental issues. On the 22nd April 2019, World Earth Day, we created a new corporate philosophy called **"Together On"**. An ideal that translates into a concrete path to make our reality a 100% Green Company. ISO 14001 Certification, Green Energy, Eco-sustainable products and Packaging, Sustainable Development projects are just some of the objectives achieved.

### Together On products, we turn on our focus to efficiency and sustainability

The Together On products are designed and developed with the aim of minimizing environmental impact as much as possible, improving energy efficiency, and investing in the sustainability of the production process.

#### • ECO-FRIENDLY PACKAGING AND COMMUNICATION:

The care for the **environment** is an integral part for the choice of our **packaging** as well as the sensitivity in leading our users towards the **proper waste disposal** for both products and packaging.

Cardboard product box

Paper tape closing

Instructions with symbols for the proper disposal of each material

QR CODE label which redirect to the site

Eco Tips and suggestions on the correct disposal of waste, contained within the packaging of each product

## ● WEB SITE:

Our commitment to a “Green” approach is showcased on our [website](#) through a dedicated section featuring stories about **Together On branded projects and products**, as well as tips and advice on how “To be eco-friendly” at Home, in the Office, or while Traveling.

To be eco-friendly a Casa

To be eco-friendly in Ufficio

To be eco-friendly in Viaggio

## ● CERTIFICATIONS:

To be a Green Oriented company means committing to concretely reduce the production processes, storage and marketing of products impact and using clean energy sources. For this reason Tecnoware has received the **14001 Certification** and uses only **certified Green Energy**.

RePower electricity  
2021 origin Certificate

RePower electricity  
2022 origin Certificate

RePower electricity  
2023 origin Certificate

We are engaged in telling and sharing Projects and Initiatives that allows our **Company** to be **Green-Oriented**. Concrete actions, discussion opportunities, situations to be shared along a virtuous way in **protecting and safeguarding environment direction**.

# UPS ERA PLUS DC

## USB 5VDC 2A, USB-C OUTPUT 5V/9V/12V/15V/20V

*Together on*

1 On/off button 2 Battery mode indicator 3 Line mode indicator 4 USB Type-A 5V/2A Output 5 USB Type-C QC/PD Output 6 AC Input

### Main Specifications

- For powering devices such as WiFis, Routers, Modems, VOIP, cameras and charging Tablets, SmartPhones, Bluetooth headsets, Smartwatches, ecc
- 5.200 mAh Lithium-ion batteries
- Included 4 connectors: compatibility with most devices
- DC 12V 100cm output cable for connection to modem/router
- Overload and Short circuit protection
- Overvoltage protection
- Temperature control inside

### Specifications

### Easily replaceable batteries

### Included

24V - 48V  
**POE****10**  
CONNECTORS  
INCLUDED  
**8.800**  
mAh

- 1 Line/Battery mode indicator 2 On/off button 3 12Vdc output indicator 4 9Vdc output indicator 5 Battery Level indicator 6 5Vdc 1A USB Charger  
7 24Vdc/48Vdc POE Output selector 8 LAN Input 9 LAN and POE Output 10 POE Reset 11 9Vdc/12Vdc DC Output 12 9Vdc/12Vdc DC Output selector  
13 AC Input

### Main Specifications

- For powering devices such as WiFis, Routers, Modems, VOIP, cameras and charging Tablets, SmartPhones, Bluetooth headsets, Smartwatches, ecc.
- 8.800 mAh Lithium-ion batteries
- POE function: for additional power supply on the LAN cable
- Included 10 connectors: compatibility with most devices
- Overload and Short circuit protection
- Overvoltage protection
- Temperature control inside

### Specifications

| UPS Model                          | ERA PLUS DC 9VDC/12VDC - POE 24VDC/48VDC - USB 5VDC                          |

### Included

- 1 On/Off switch 2 Power cable 3 Input thermal protection 4 Output sockets with child protection and blackout protection 5 Filtered output socket with child protection 6 5Vdc 2.1A USB Charger 7 USB Port 8 RJ11/45 Port

## Main Specifications

- Personal Computer, Modem/Router, Cash Register, Pos
- Automatic Voltage Regulation circuit (AVR)
- USB Charger (5V 2.1A) port
- Easy replacement batteries
- Rear slots for wall mounting

- Output sockets with child protection for blackout protection
- Output sockets with child protection for overvoltage protection
- USB port
- UPS Management Software TecnoManager compatible with Windows, Mac OS X, Unix, Linux, etc.

\* This UPS is designed and sized for the protection of IT workstations. The power expressed as "Max Computer Power" corresponds to the sum of the Plate Powers, of the Switching Power Supplies present in the IT Stations to be protected. For any use with devices other than IT workstations, it is advisable to seek specific advice from the manufacturer

Available on request with input/output nominal voltage 110Vac or 120Vac and with input plug and output sockets for specific country.

- 1 On/Off button 2 LCD Display 3 USB port 4 Line protection Telephone/Modem/Lan RJ11/RJ45 5 Output sockets with blackout protection  
6 Input fuse 7 Input socket

## Main Specifications

- For Small server, Local Area Networks (LAN), Switch, HUB, Firewall, Video Surveillance Systems
- Automatic Voltage Regulation circuit (AVR)
- Output sockets with blackout protection
- USB Port
- Mounting in Rack cabinet 19"
- UPS Management TecnoManager compatible with Windows, Mac OS X, Unix, Linux, etc.

\* This UPS is designed and sized for the protection of IT workstations. The power expressed as "Max Computer Power" corresponds to the sum of the Plate Powers, of the Switching Power Supplies present in the IT Stations to be protected. For any use with devices other than IT workstations, it is advisable to seek specific advice from the manufacturer

- 1 On/off switch 2 Power cable 3 Input thermal protection 4 Output sockets with child protection and blackout protection 5 Filtered output socket with child protection 6 USB Port (only for Era Plus 1.200 and Era Plus 1.600)

Main Specifications

- Personal Computer, Modem, Local Area Networks, Video Surveillance Systems
- Automatic Voltage Regulation circuit (AVR)
- Output sockets with child protection for blackout protection
- Output sockets with child protection for overvoltage protection
- USB Port (only for Era Plus 1.200-1.600)
- UPS Management Software TecnoManager compatible with Windows, Mac OS X, Unix, Linux, etc.

\* This UPS is designed and sized for the protection of IT workstations. The power expressed as "Max Computer Power" corresponds to the sum of the Plate Powers, of the Switching Power Supplies present in the IT Stations to be protected. For any use with devices other than IT workstations, it is advisable to seek specific advice from the manufacturer

- 1 On/Off button 2 LED Line/Battery/Fault 3 Power cable 4 Protezione termica d'ingresso 5 Output sockets with blackout protection  
6 USB Port

Main Specifications

- For Personal Computer, Console Game, Local Area Networks (LAN), Video Surveillance Systems
- Designed for Power Supplies with active PFC
- Automatic Voltage Regulation circuit (AVR)
- Output sockets with child protection for blackout protection
- Output sockets with child protection for overvoltage protection
- USB port
- UPS Management Software compatible with Windows, Mac OS X, Unix, Linux, etc.

\* This UPS is designed and sized for the protection of IT workstations. The power expressed as "Max Computer Power" corresponds to the sum of the Plate Powers, of the Switching Power Supplies present in the IT Stations to be protected. For any use with devices other than IT workstations, it is advisable to seek specific advice from the manufacturer

Available on request with input/output nominal voltage 110Vac or 120Vac and with input plug and output sockets for specific country.

- 1 Display LCD 2 On/Off button - Control buttons 3 5V 2.1A USB Charger 4 Output socket with blackout protection 5 Filtered output socket 6 Input socket 7 Input fuse 8 Line protection Telephone/Modem/Lan RJ11/RJ45 9 USB port

## Main Specifications

- For Workstation, PC Game, Console Game, Personal Computer, Server, Local Area Networks (LAN), Home Theatre, TV, HI-FI, Fireplace heating systems (excluding Exa PLUS 1.100), Home heating system
- Silent (the fan works only in Battery Mode or boost/buck AVR mode)
- Display with Intelligent Backlighting System
- 2 USB Charger Ports (5V 2.1A)
- Automatic Voltage Regulation circuit (AVR)
- Sinewave output
- Hot Swap battery
- Output sockets with blackout protection
- Output sockets for surge protection
- UPS Management Software TecnoManager compatible with Windows, Mac OS X, Unix, Linux, etc.

Ups Exa Plus 3.000

Ups Exa Plus 4.500

- 1 Input socket 2 Input Thermal protection 3 IEC320 C13 output sockets with Blackout protection 4 IEC320 C19 output socket with Blackout protection  
5 USB port 6 RS232 port 7 Slot for SNMP, Dry Contact or MODBUS interface 8 EPO connector 9 Connector for additional Battery Box

Main Specifications

- For Workstation, PC Game, Personal Computer, Server,  
Local Area Networks (LAN)
- Designed for silent environment  
the fan works only in Battery Mode or boost/buck AVR mode)
  - Display with Intelligent Backlighting System
  - Automatic Voltage Regulation circuit (AVR)
  - Intelligent slot for SNMP or Dry Contact card or MODBUS
  - Sinewave output
  - Battery charging system controlled by microprocessor
  - Output sockets with blackout and surge protection
  - UPS Management Software TecnoManager compatible with Windows, Mac OS X, Unix, Linux, etc.

Ups Evo DSP Plus 1.200 PF 0,9

Ups Evo DSP Plus 2.400 PF 0,9

Ups Evo DSP Plus 3.600 PF 0,9

Ups Evo DSP Plus 5.500 PF 0,9

- ① Input connection ② Input Thermal protection ③ IEC320 C13 output sockets with Blackout protection  
 ④ Output Terminal block with Blackout protection ⑤ USB port ⑥ RS232 port ⑦ Slot for SNMP, Dry Contact or MODBUS interface  
 (for EVO DSP Plus 5.5 PF 0,9 to replace USB e RS232) ⑧ EPO connector ⑨ Connector for additional Battery Box  
 ⑩ Switch mains input ⑪ Input/output terminal block

**POWER FACTOR** 0,9

### Main Specifications

- For Local Area Network (LAN), Data Centers, Industrial equipment, Electromedical equipment
- Power Factor 0,9
- Rectifier realized by IGBT technology

- Compatible with Generators
- Battery charging system controlled by micro processor
- Intelligent slot for SNMP or Dry Contact card or MODBUS

- Static Bypass
- High efficiency and low operating cost
- UPS Management Software TecnoManager compatible with Windows, Mac OS X, Unix, Linux, etc.

**HIGH EFFICIENCY**  
94%

### Accessories

| Model   | Code         |
|---|--------------|
| Bypass Box for UPS RT from 1.2 KVA to 3.6 KVA | FGCBYPIEC    |
| Dry Contact DB9 Interface                     | FGCEVODSDRY3 |
| Dry Contact 9 PIN Interface                   | FGCEVODSDRY4 |

| Model                                   | Code        |
|---|-------------|
| SNMP Internal Interface                 | FGCNETAG7   |
| ModBus RS485 Interface                  | FGCMODBUS   |
| Kit 2 shelves for UPS Rack Installation | FGCKITEVORT |

- 1 Connector for the UPS Battery Box connection 2 Extra Battery Box connector 3 Power socket for the battery charger circuit  
4 Thermal Fuse protecting the battery charger circuit 5 Thermal switch for battery circuit

Main Specifications

- Internal battery charger on every unit
- Units can be expanded infinitely
- Batteries with thermal circuit protection
- Easy connection to UPS
- Convertible format (Tower or Rack 19")

# UPS EVO DSP PLUS PF 1

## 6-10

Together on

Ups Evo DSP Plus 6.0-10.0 PF 1

POWER FACTOR **1**

- 1 RS232 port 2 USB port 3 Slot for SNMP interface, Dry Contact or MODBUS 4 EPO connector 5 Switch mains input 6 Input/output terminal block  
7 Connector for external Battery Box 8 Manual bypass switch for maintenance 9 Interface for parallel connection

### Main Specifications

- Local Area Network (LAN), Data Centers, Industrial equipment, Electromedical equipment
- Power factor 1
- Rectifier realized by IGBT technology
- Compatible with generators
- Battery charging system controlled by microprocessor

- Extension Back-up time by external Battery box
- Static and Manual Bypass
- Expandable up to 2 units in parallel
- UPS Management Software TecnoManager compatible with Windows, Mac OS X, Unix, Linux, etc.

HIGH EFFICIENCY  
**94%**

|--|--------------|
| Bypass Box for Evo Dsp Plus 6.0 and 10.0 | FGCBYP10MM2  |
| Dry Contact DB9 Interface                | FGCEVODSDRY3 |
| Dry Contact 9 PIN Interface              | FGCEVODSDRY4 |

| Model                    | Code      |
|--------------------------|-----------|
| SNMP for Evo Dsp Plus MM | FGCNETAG7 |
| ModBus RS485 Interface   | FGCMODBUS |

- 1 Thermal Fuse protecting the battery charger circuit 2 Power Socket for the battery charger circuit 3 Thermal switch for battery circuit  
4 Connector for the UPS connection 5 Extra Battery Box connector

Main Specifications

- Internal battery charger on every unit
- Units can be expanded infinitely
- Batteries with thermal circuit protection
- Easy connection to UPS
- Reduced dimensions
- Easy installation and maintenance

UPS Evo DSP Plus RM 6.0-10.0 PF 1

POWER  
FACTOR 1

- 1 LCD display 2 LED status light 3 Multifunction buttons 4 USB port 5 RS232 port 6 EPO connector 7 Slot for SNMP, Dry Contact or MODBUS  
8 Input/output Terminal Box 9 Input network switch 10 Battery Box connector 11 Interface for parallel connection

**Main Specifications**

- For Local Area Network (LAN), Data Centers
- Power factor 1
- Rectifier realized by IGBT technology
- Compatible with Generators
- Battery charging system controlled by microprocessor
- Static Bypass
- Expandable up to 2 units in parallel
- UPS Management Software TecnoManager compatible with Windows, Mac OS X, Unix, Linux, etc.

HIGH  
EFFICIENCY  
94%**Specifications**

**Accessories**

| Model   | Code         |
|---|--------------|
| Bypass Box for Evo Dsp Plus Rack Mount 6.0 and 10.0 | FGCBYP10MMRM |
| Dry Contact DB9 Interface                           | FGCEVODSDRY3 |
| Dry Contact 9 PIN Interface                         | FGCEVODSDRY4 |
| SNMP for Ups Evo Dsp Plus                           | FGCNETAG7    |
| ModBus RS485 Interface                              | FGCMODBUS    |
| Kit 2 shelves for UPS Rack Installation             | FGCKITEVORT  |

- 1 Thermal protection for battery charger circuit 2 Power socket for the battery charger circuit 3 Thermal switch for battery circuit  
4 Connector for the UPS connection 5 Extra Battery Box connector

#### Main Specifications

- Internal battery charger on every unit
- Units can be expanded infinitely
- Batteries with thermal circuit protection
- Easy connection to UPS
- Hot Swap batteries
- Rack format 19", height 3U
- Packaging containing separate Battery Box and Battery Pack

#### Easy installation

The Battery Box and Battery Pack are supplied separately in the packaging for an easy installation.

So the total weight is divided into several parts, making it easier to install.

A single operator can easily install the Battery Box inside the UPS and then the battery pack.

LOCAL AREA NETWORK

DATA CENTER

**EASY HOT SWAP DESIGN**

The innovative Design Hot Swap and the complete independence of each module allow a simple and quick maintenance and possible expansions of power and autonomy.

**FLEXIBLE MODULAR DESIGN**

Scalable architecture allow to easily increase power (from 20KVA to 300KVA), redundancy level (N+1 or N+X) and Back-Up time by simply additional UPS modules and Battery cabinet. All this allows to optimize the investment.

**NO-DOWNTIME SYSTEM**

The Redundance configuration and Hot Swap Design ensure always full power also in case of failure and replacement of module or scheduled maintenance. All this features guarantee low MTTR (Mean Time To Repair).

POWER  
FACTOR

1

HIGH  
EFFICIENCY  
96,5%

For Data Centers, Local Area Network (LAN), Industrial equipment, Electromedical equipment

10" touch LCD display

Compatible with Generators

Power Factor 1

Frequency converter

Shared Battery Cabinet

Battery module up to 120 KVA contained in the same cabinet

High MTBF and low MTTR

UPS Management Software TecnoManager compatible with Windows, Mac OS X, Unix, Linux, etc.

- 1 10" touch LCD display
- 2 Input / Output, Maintenance Bypass, Breakers
- 3 STS Module Includes Communication Ports
- 4 Power Module
- 5 Battery Module

**Ease of installation and maintenance**

Built-in maintenance bypass assures continuous power to critical loads during UPS maintenance.

Easy installation and maintenance, panel control and connectors with frontal accessibility.

LOCAL AREA NETWORK

DATA CENTER

### EASY HOT SWAP DESIGN

The innovative Design Hot Swap and the complete independence of each module allow a simple and quick maintenance and possible expansions of power and autonomy.

### FLEXIBLE MODULAR DESIGN

Scalable architecture allow to easily increase power (from 20KVA to 140KVA), redundancy level (N+1 or N+X) and Back-Up time by simply additional UPS modules and Battery cabinet. All this allows to optimize the investment.

### NO-DOWNTIME SYSTEM

The Redundance configuration and Hot Swap Design ensure always full power also in case of failure and replacement of module or scheduled maintenance. All this features guarantee low MTTR (Mean Time To Repair).

POWER FACTOR

1

HIGH EFFICIENCY  
96,5%

For Data Centers, Local Area Network (LAN), Industrial equipment, Electromedical equipment

10" touch LCD display

Compatible with Generators

Power Factor 1

Frequency converter

Shared Battery Cabinet

High MTBF and low MTTR

UPS Management Software TecnoManager compatible with Windows, Mac OS X, Unix, Linux, etc.

Evo Dsp Plus Modular 208 Vac PF1

- 1 10" touch LCD display
- 2 Input/Output Switches and Maintenance Bypass
- 3 STS Module and Communication Ports
- 4 Power Module

### Ease of installation and maintenance

Built-in maintenance bypass assures continuous power to critical loads during UPS maintenance.

Easy installation and maintenance, panel control and connectors with frontal accessibility.

### Main Specifications

- For Local Area Network (LAN), Data Centers, Industrial equipment, Electromedical equipment
- Power factor 1
- Double input mains/bypass
- Rectifier realized by IGBT technology

- Compatible with Generators
- Battery recharge system managed by microprocessor
- Static and manual bypass
- Expandable up to 3 units in parallel with shared Box Battery
- UPS Management Software TecnoManager compatible with Windows, Mac OS X, Unix, Linux, etc.

**HIGH  
EFFICIENCY**  
**96%**

### Accessories

| Model                   | Code         |
|-------------------------|--------------|
| Parallel cables kit     | FGCKITPARCA1 |
| Internal SNMP interface | FGCNETAG7    |
| ModBus RS485 interface  | FGCMODBUS    |

| Model                       | Code         |
|-----------------------------|--------------|
| Dry Contact DB9 interface   | FGCEVODSDRY3 |
| Dry Contact 9 PIN interface | FGCEVODSDRY4 |

Main Specifications

- Front door for access to battery compartments
- Isolator fuse protecting the battery circuit
- Removable side panels
- Easy maintenance

Main Specifications

- Front door for access to battery compartments
- Isolator fuse protecting the battery circuit
- Removable side panels
- Easy maintenance

# UPS EVO DSP PLUS TT PF 1

## 10-20-30

Together on

Ups Evo DSP Plus 10-20 TT PF 1

Ups Evo DSP Plus 30 TT PF 1

- 1 RS232 port 2 USB port 3 EPO connector 4 Interface for parallel connection 5 Slot for SNMP interface, Dry Contact or MODBUS 6 Input bypass switch  
7 Manual bypass switch for maintenance 8 Output voltage switch 9 Input voltage switch 10 Connector for external Battery Box 11 Input/output terminal box

POWER FACTOR 1

DISPLAY LCD  
color touch

### Main Specifications

- For Local Area Network (LAN), Data Centers, Industrial equipment, Electromedical equipment
- Power factor 1
- Double input mains/bypass
- Rectifier realized by IGBT technology

- Compatible with Generators
- Battery recharge system managed by microprocessor
- Static and manual bypass
- Expandable up to 2 units in parallel with shared Box Battery
- UPS Management Software TecnoManager compatible with Windows, Mac OS X, Unix, Linux, etc.

HIGH EFFICIENCY  
96%

**Main Specifications**

- Front door for access to battery compartments
- Isolator fuse protecting the battery circuit
- Removable side panels
- Easy maintenance

**Main Specifications**

- Front door for access to battery compartments
- Isolator fuse protecting the battery circuit
- Removable side panels
- Easy maintenance

- 1 RS232 port 2 USB port 3 EPO connector 4 Interface for parallel connection 5 Slot for SNMP interface, Dry Contact or MODBUS 6 Input bypass switch  
7 Manual bypass switch for maintenance 8 Output voltage switch 9 Input switch 10 Connector for external Battery Box 11 Input/output terminal box

### Main Specifications

- Local Area Networks (LAN), Data Centers, Industrial equipment, Electromedical equipment
- Power factor 1
- Double input mains/Bypass
- Rectifier realized by IGBT technology
- Compatible with Generators
- Battery charging system controlled by microprocessor
- Static and manual bypass
- Expandable up to 2 units in parallel with shared Box Battery
- UPS Management Software TecnoManager compatible with Windows, Mac OS X, Unix, Linux, etc.

HIGH  
EFFICIENCY  
96%

### Accessories

| Model                       | Code         |
|-----------------------------|--------------|
| Parallel Kit                | FGCKITPARCA1 |
| Internal SNMP               | FGCNETAG7    |
| Dry Contact DB9 Interface   | FGCEVODSDRY3 |
| Dry Contact 9 PIN Interface | FGCEVODSDRY4 |
| ModBus RS485 Interface      | FGCMODBUS    |

| Model  | Code        |
|--|-------------|
| Three-phase isolation Trans. 40 KVA star/star  | FGCIT40KSST |
| Three-phase isolation Trans. 40 KVA delta/star | FGCIT40KTST |
| Three-phase isolation Trans. 60 KVA star/star  | FGCIT60KSST |
| Three-phase isolation Trans. 60 KVA delta/star | FGCIT60KTST |

### Main Specifications

- Front door for access to battery compartments
- Isolator fuse protecting the battery circuit
- Removable side panels
- Easy maintenance

### Main Specifications

- Front door for access to battery compartments
- Isolator fuse protecting the battery circuit
- Removable side panels
- Easy maintenance

# UPS EVO DSP PLUS TT 208 VAC PF 1

## 10-20

Together on

Ups Evo DSP Plus 10 TT 208V PF 1

Ups Evo DSP Plus 20 TT 208V PF 1

208 Vac

POWER FACTOR 1

DISPLAY LCD  
color touch

- 1 RS232 port 2 USB port 3 EPO connector 4 Interface for parallel connection 5 Slot for SNMP interface, Dry Contact or MODBUS 6 Input bypass switch  
7 Manual bypass switch for maintenance 8 Output voltage switch 9 Input switch 10 Connector for external Battery Box 11 Input/output terminal box

### Main Specifications

- Local Area Networks (LAN), Data Centers, Industrial equipment, Electromedical equipment
- Power factor 1
- Rectifier realized by IGBT technology
- Compatible with Generators
- Battery charging system controlled by microprocessor
- Static and manual bypass
- Expandable up to 3 units in parallel with shared Box Battery
- UPS Management Software TecnoManager compatible with Windows, Mac OS X, Unix, Linux, etc.

HIGH  
EFFICIENCY  
94%

### Main Specifications

- Local Area Networks (LAN), Data Centers, Industrial equipment, Electromedical equipment
- Power factor 1
- Rectifier realized by IGBT technology
- Compatible with Generators
- Battery charging system controlled by microprocessor
- Static and manual bypass
- Expandable up to 3 units in parallel with shared Box Battery
- UPS Management Software TecnoManager compatible with Windows, Mac OS X, Unix, Linux, etc.

HIGH  
EFFICIENCY

# AUTOMATIC TRANSFER SWITCH

16A-30A

- 1 Input switch 2 Fuse breaker 3 USB Port 4 RS-232 Port 5 Source preference selector 6 Priority setting LED 7 Input source availability LED 8 Output source LED 9 Fault LED 10 Mute button 11 Slot for interface SNMP 12 Status Contact port 13 Output sockets (IEC 320 C13) 14 Output sockets (IEC 320 C19) 15 Input connectors (IEC 16A) 16 Input Terminal Block 17 Output Terminal Block

## Main Specifications

- Powered by two separately independent power sources
- Dual power supply for redundancy
- Preferred source selection on front panel
- 19" rack design (1U)
- USB and RS232 communications ports
- UPS Management Software ATS Monitor compatible with Windows

Power Battery 12V 5Ah

Power Battery 12V 7.2Ah-9Ah-9Ah Long Life

Power Battery 12V 54W

The communication software is downloadable free from [www.tecnoware.com](http://www.tecnoware.com). Installing it on your computer can be controlled in real time, through the RS232 serial port or USB, the status of the power supply, the operation of the UPS, the charge level and the efficiency of the batteries.

In the event of anomalies in the power supply, the software will automatically proceed to save all the open files and will then close down the operating system and switch off the computer in an ordered manner, before the autonomy runtime of the UPS expires.

In addition, the software monitors, analyses and records a vast range of parameters related to the operation of the UPS. It visualises in real time, in the form of a graph, the input/output voltage, frequency and charge connected to the UPS, the working temperature and the charge level of the batteries.

1) Compatible with Windows, Mac OS X, Unix, Linux, etc

2) Compatible with Windows

## SNMP Interface

(connection through RJ45 LAN network)

The SNMP (Simple Network Management Protocol) interface enables connection and configuration of the UPS in a LAN computer network. Each SNMP interface provides the necessary software for the monitoring and management of the UPS via LAN, compatible with most Operating Systems.

Dry Contact board  
(Dry Contact)

Dry Contact board provides a set of relay contacts (Dry Contacts) able to identify UPS alarm status as battery mode, discharged battery, active bypass or general alarm. It can be used to interface with the systems that manage industrial processes.

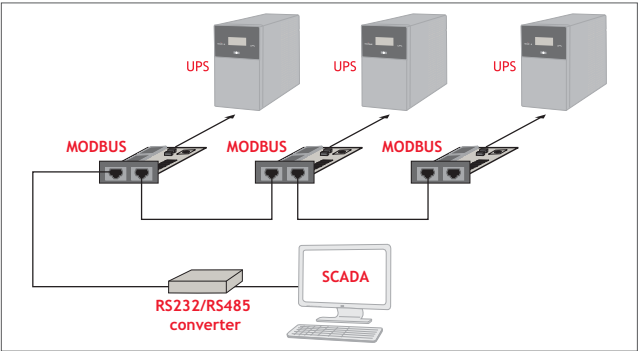

Dry Contact Interface Compatibility

MODBUS RS485 board

The MODBUS RS485 interface allows UPS and PC connection trough MODBUS protocol. It has MODBUS RTU protocol, includes reading and writing registers and provides the RS485/RS232 interface.

## Main Specifications

- Domestic users, Lighting Systems, Industrial Processes, Communications, Electromedical equipment
- High stabilization speed
- High Efficiency
- No brownouts stabilization
- Do not introduce harmonic distortion
- Management changes from 0 to 100% load
- Multifunction display with visualization and setting operating parameters

## Specifications

Single-Phase 7.5KVA  
Single-Phase 10KVA

① Multifunction Display ② Input voltage switch ③ Bypass switch ④ Input/output terminal box

Multifunction LED Display

## Main Specifications

- Bidirectional, designed for Photovoltaic Systems with voltage stabilization on both mains input and output side
- For utenze domestic users, Lighting Systems
- High stabilization speed
- High Efficiency
- No brownouts stabilization
- Do not introduce harmonic distortion
- Management changes from 0 to 100% load
- Multifunction display with visualization and setting operating parameters

## Specifications

**SILENT**  
**INVERTER**  
Technology

#### Main Specifications

- Silent Inverter Generator
- Eco Speed Control system to optimize consumption and reduce noise
- Portable and compact
- OHV 4-stroke engine
- Pure Sinewave output voltage
- Fuel tank for 10 hours at 50% load
- Low oil alert
- Overload protection
- Battery Charger
- Dual AC and DC 12V output

#### Specifications

| Model                          | SILENT INVERTER GENERATOR 2.200                |

# GASOLINE GENERATOR

## 3.200-4.200-7.800-9.200

AUTOMATIC  
VOLTAGE  
REGULATOR

Gasoline Generator 3.200 VA Recoil Starting System

Gasoline Generator 4.200 VA Electrical Starting System

Gasoline Generator 7.800 VA Electrical Starting System

Gasoline Generator 9.200 VA Electrical/Automatic Starting System

### Main Specifications

- OHV 4-stroke engine
- Metal fuel tank for 10 hours at 50% load
- Low oil alert
- AVR and overload protection
- Ready for External Automatic Transfer Switch (only r Gasoline Generator 4.200 VA and Gasoline Generator 9.200 VA)
- Battery Charger (only for electrical model)
- Dual AC and DC 12V output
- Low operation noise

### Specifications

### Accessories

| Model   | Code       |
|---|------------|
| External Gasoline Generator ATS for Generator FGE4200EA and FGE9200EA | FGEATS9200 |

Gasoline Generator ATS checks the AC mains and charges the Generator battery. In the event of a blackout, it automatically starts the Generator engine and supplies the load with Generator power. When the AC mains returns it supplies the load with AC mains, charges the Generator battery and shutdown (with delay) the Generator engine.

- 1 AC mains indicator 2 Generator ON indicator 3 Automatic Starting System active indicator 4 Failure indicator 5 Manual/Automatic Starting System selector  
6 Generator Interface connector 7 Terminal Block for AC Power from Generator 8 Terminal Block for AC Power from AC mains  
9 Terminal Block for AC Power to load 10 Metal hooks for wall mounting

Main Specifications

- Metal case with hooks for wall mounting
- Metal door with key for Terminal Block access
- Generator Automatic Starting System
- Battery charger for Generator battery
- Selector for Manual/Automatic Starting
- 2m ATS/Generator connecting cable

ATA 1.200VA

ATA 3.500VA - ATA 5.500VA

**POWER  
FACTOR 1**
**SOLAR INPUT  
MPPT**

## Main Specifications

- Pure sinewave MPPT solar inverter
- Power Factor 1
- High PV Input Voltage Range
- Battery equalization function to optimize battery performance and extend lifecycle
- Selectable high power charging current
- Configurable AC/Solar input priority
- Compatible with generator
- Auto restart while AC is recovering
- Cold start function

**REQUEST INFORMATION**

- Complete protection against blackout and power surges (overvoltages and undervoltages)
- Recommended for Personal Computers, DVB / Hbb and video surveillance systems, ADSL / fiber modem, switch / router, cash registers.
- Not suitable with power supplies with Active PFC circuit (Server, PC game, video game console, workstation, Mac computer, lamps and electric motors)
- AVR Automatic Voltage Regulator electronic circuit
- 2 Italy / Schuko output sockets and 1 Schuko input cable
- output socket protected against backflow
- output socket protected against overvoltages
- multifunction LED and on-off button

**User's Manual** **Product Details** **Certifications**

UPS ERA PLUS 800VA, 120/74h battery, 11kVA 1 SCHUKO input fixed cable and 2 SCHUKO outputs protected against backflow, overvoltages and undervoltages. Line Interactive Plus technology. Dimensions 15x14x42 cm, weight 3.9 kg. Equipped with On/Off button with integrated multifunction LED with audible alarm for signaling the operating status. Designed to protect PC Office, DVB for video surveillance, ADSL, Fiber Modem / router, Cash Register. Totally silent.

**Together on**  
People protecting the Planet **Together**

**Help us to help the environment!**

Tecnoware has always been a company sensitive to environmental issues. On the 22nd April 2015, World Earth Day, we created a new corporate philosophy called **"Together On"** an ideal that translates into a concrete path to make our reality a **100% Green Company**. ISO 14001 certification, Green Energy, Eco-sustainable products and Packaging, Sustainable Development projects are just some of the objectives achieved. We turn the attention ("ON") on the importance of the actions of each individual (reality, individual or company), but we are aware that only together as a community (Together) can we make a difference. To enhance and share our commitment in a "Green" key, we have created this section in which we will talk about our Projects, we will explain how Together On brand products are born and we will provide useful tips and advice on how to make everyday life **eco-friendly**.

**Together on**  
TOGETHER ON PRODUCTS

**TECNOWARE GREEN COMPANY**

**TO BE ECO-FRIENDLY**

Together On products are designed and manufactured according to the eco-sustainable philosophy. The Tecnoware Research & Development Department has always been committed to the environment.

Tecnoware was created in 1986 and since the first years of activity it has been able to be a pioneer in the environmental field. The Research and Development Department has always been committed to the environment.

All of us, today more than ever, are called to make our contribution to the environment. We want to be the first to offer a solution that does not cause damage to the environment.
